- DT series connectors are by far the most popular connector used in many automotive, industrial and Motorsport applications. Available in 2,3,4,6,8 and 12 pin configurations, makes connecting multiple wires together very easy. the DT line to be weather resistant as well as dust proof, resulting the DT series connectors being rated to **IP68**. DT connectors come in several color options as well as different modifications. Here are the 2 most common modifications and a brief description of the different colors and what they indicate.

DT Series Connectors

DT06-2S

DT06-3S

DT06-4S

DT06-6S

DT06-08SA

DT06-12SA

DT04-2P

DT04-3P

DT04-4P

DT04-6P

DT04-08PA

DT04-12PA
